Table of Contents

1. Create a Google account

   - Skip this exercise if you already have a Google account

   - If you use Gmail or have a ChromeBook, you already have a Google account!

2. Sign in to your Google Account in your Chrome Browser

   - If you just did exercise 1, you should already be signed in!
     You should be able to skip this step—although you can practice signing out and then signing back in

3. Turn 2FA on for your Google Account

4. Sign in to Pinterest using social sign in

   - **Note:** If you already have a Pinterest account, you will be creating a new Pinterest account in completing this exercise; you can delete this new account if you so choose

Exercise 1: Create a Google Account

1. Go to google.com in your browser

2. Click the blue "Sign In" button

3. Click the "Create account" link

4. Select "For my personal use" from the menu

5. Enter something in the "First name" and "Last name" fields and click the "Next" button

6. Enter a date of birth and gender; click the "Next" button

7. Enter an id and click the "Next" button
   Google will let you know if the value you enter is already being used as an id by someone else

8. Enter a password value (twice) and click the "Next" button

9. Enter your cell phone number and click the "Next" button
   Note: you need to have your cell phone on your person!

10. Enter the 6-digit code you received in a text message; click the "Next" button

11. Enter the address of a valid/active email account you have; click the "Next" button

12. Enter your cell phone number (yes, again!) and click the "Next" button

13. Click the "Next" button on the "Review your account info" page

14. Scroll to the bottom of the "Privacy and Terms" page and click the "Accept" button

15. *Accept/skip the "Confirm personalization" page*

16. *You should now be signed in to Google inside your Chrome browser app; notice the "You" icon has changed*
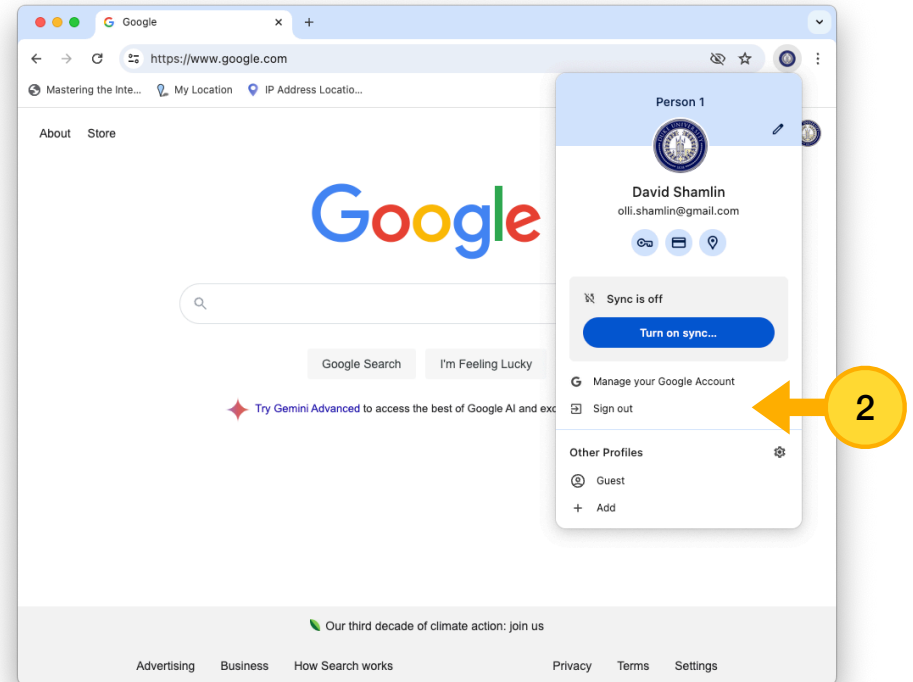

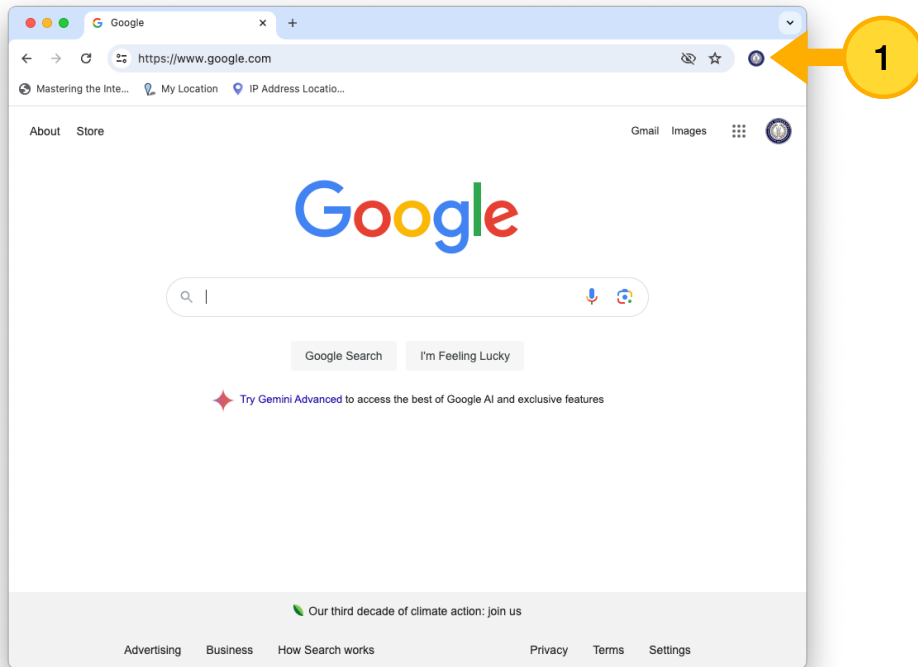

Exercise 2: Sign in to your Google account in Chrome browser

1. Enter "google.com" in your browser address bar

2. If you are not logged in, your browser should look like the picture on the left
   Click the "Sign In" button to start the sign in (ie, authentication) process

3. If you are logged in, your browser should look similar to the picture on the right
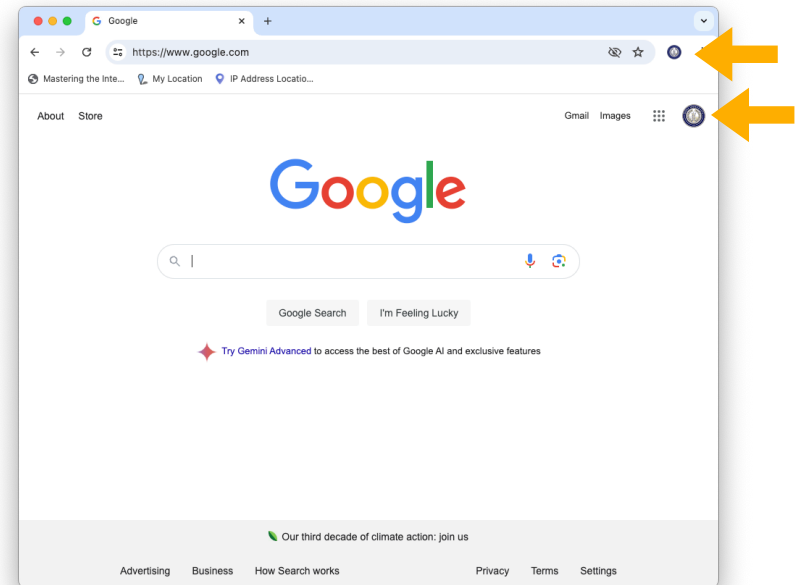

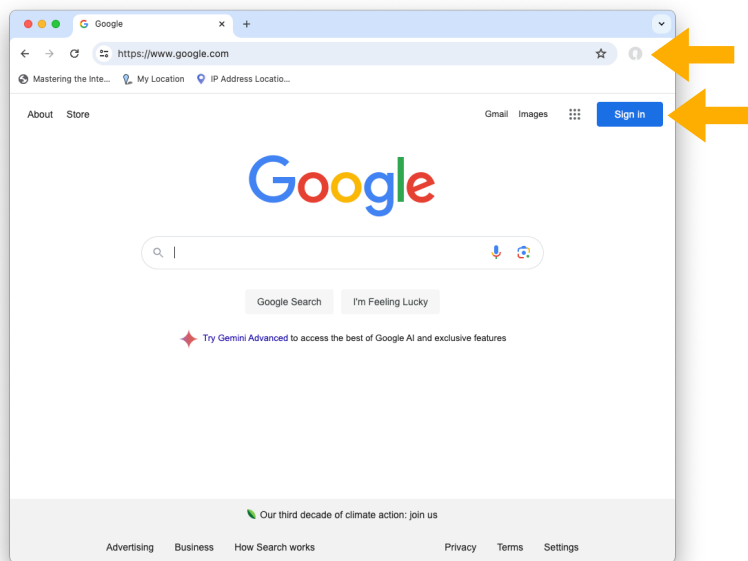

Exercise 2: Sign out & sign in again

1. Click on the "You" icon

2. Click on the "Sign out" item

Exercise 3: Turn 2FA on

Note: You must be signed in to Google in your Chrome browser before you begin this exercise.
